Letter of Commitment to the Concordat to Support the Career Development of Researchers

I, John Wright on behalf of the Bradford Teaching Hospitals, NHS Foundation Trust confirm our commitment to the Concordat to Support the Career Development of Researchers.

The Bradford Teaching Hospitals fully support the principles of this revised Concordat and we intend to uphold our obligations and responsibilities as a signatory.

We are committed to our continuing role in giving researchers the opportunity and support to flourish and reach their potential, through enhancing the provision of training and development of researchers and empowering them to make an impact in their careers, their research identity and broader leadership skills.

We agree to work collectively and engage with initiatives to address systemic challenges in progressing towards a UK research system where researchers work in healthy and supportive environments. We agree that researchers should be recognised and valued for their contributions in research and beyond, supported in their professional and career development, and equipped and empowered to succeed in their chosen careers.

Yours sincerely,
Professor John Wright
Director of Research/BIHR
